SensCheck™
Door and Window Sensors

SensCheck™. It just makes sense.

Trusted every day

Is my home safe and secure?

Know the answer, at home or away with Yale **Sens**Check™ Door and Window Sensors.

Yale **Sens**Check™ Sensors put you in control of your home security.

Monitor the status of your doors and windows from anywhere at any time via the Yale Smart Living Home App. Receive notifications and tamper alerts straight to your smartphone, or chime notifications when the status or your door or windows change.

Yale **Sens**Check™. It just makes sense.

Wireless

Real-time Notifications

Live Status

Geo-fencing

Arm/ Part Arm

Using **Sens**Check™ Sensors, you can check to see the status of your home, from anywhere, anytime.

Yale **Sens**Check™ Sensors are simple to install in compatible smart doors and smart windows, easy to set up and control through the Smart Living Home App.

Benefits of **Sens**Check™ include:

- Sensor status notifications and tamper alerts
- Geo-fencing notifications
- Part Arm functionality
- Chime notifications
- Integration with Amazon Alexa, Google Assistant and Philips Hue
- BSI IoT accredited
- Ability to upgrade to full Yale Smart Security System

About SensCheck™

When your new smart windows or doors are fitted, simply scan the QR code to visit **yalehome.co.uk**, where you can purchase the **Sens**Check™ Sensors.

SensCheck™ Sensors are designed to fit all compatible smart windows and doors.

Check if your doors are open, closed, locked or unlocked. Check if your windows are open, locked in the vented position, or locked in the closed position

Receive a chime notification when a window or door changes status

Alarm will sound (using 94dB Sync Hub) if sensor status changes when alarm is armed

Geo-fencing alerts mean you'll receive notifications on the Yale Smart Living Home app if you have forgotten to secure your property

Keep in control of your SensCheck™ door and window sensors with the Yale Sync Hub

The Yale Sync Hub is required for your **Sens**Check™ sensors to connect to the Yale Smart Living Home App. Receive notifications when your sensors are triggered through your App, so you're always aware of the status of your home.

If you already have a Yale Sync Hub installed as part of the Sync Alarm, there's no need to purchase another one, as the Sync Hub can support up to 40 alarm accessories, including **Sens**Check™ Sensors.

If you don't already own a Yale Sync Hub, we suggest choosing the **Sens**Check™ Door Sensor Kit or Window Sensor Kit. Only one Sync Hub is needed per household.

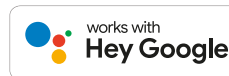

Integration

Check the status of your doors and windows with your voice.

Integration with Amazon Alexa and Google Assistant makes it even easier to check the status of your home.
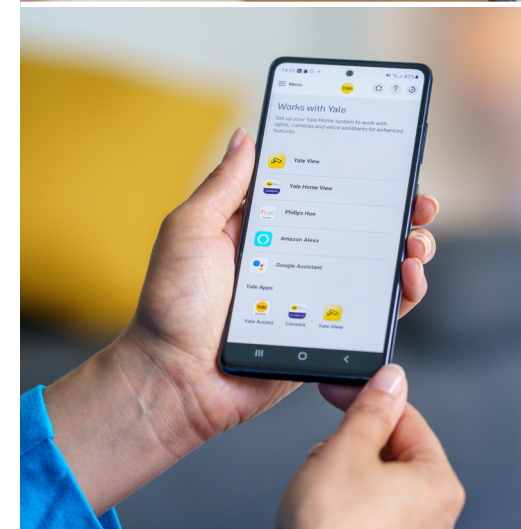

Simply ask, '...is the back door locked' or '...is the front door closed', and your voice assistant can tell you in real time if you've locked your door or window, giving you total peace of mind.

Integration with Philips Hue means your lights will flash once when alarm is armed, or disarmed. It can also act as a visual deterrent alongside notifications and audible alarm from the Sync Hub.
